# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 3	Normal Operations	Normal Operations

### Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

### **Situation Overview**

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **CDPH Statewide Travel Advisory**

As of 06/15/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information: [CDC Travel Guidelines](#)

### **Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 07/06/21 at 1700 hours:**

- 185,152,685 (+2,767,634) total confirmed cases
- 3,948,996 (+55,366) total deaths

### **Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 07/04/21 at 1700 hours:**

- 33,545,316 (+93,568) total confirmed cases
- 603,181 (+1,675) total deaths.

### **Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 07/06/21 at 1700 hours:**

- 3,719,674 (+4,861) total confirmed cases

### **COVID-19 Vaccines Administered – Per Vaccine Task Force as of 07/05/21 at 1700 hours:**

- 41,996,883 (+517,664) vaccines administered
- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details

# **SITUATION SUMMARY**

## **2021 July Extreme Heat Event**

- On 07/08/21, Phase II of the Heat Contingency Plan was activated due to forecasts of dangerous and excessive heat.
- On 07/07/21, the Sit Cell activated to Enhanced Watch for Incident Reporting for the July 2021 Heat Event.

## **2021 July Electrical Transmission Emergency**

On 07/09/21, the California Independent System Operator (CAISO) declared a Stage 2 System Emergency Notice and issued a Flex Alert due to extreme heat and wildfires. CAISO extended the statewide Flex Alert to avoid a possible shortage of energy as extreme heat in California and a growing wildfire in Southern Oregon threatening transmission lines continue to strain the state's electric grid.

- A Restricted Maintenance Operations has been declared for Monday 07/12/21, 1600 hours through 2100 hours.
  - Restricted Maintenance Operations requires generators and transmission operators to postpone any planned outages for routine equipment maintenance, ensuring all grid assets are available for use.
- CAISO also issued a Flex Alert for the same period. CAISO is anticipating high loads and temperatures across the CAISO Grid.
  - A Flex Alert is a call for consumers to voluntarily conserve electricity when there is a predicted shortage of energy supply, especially if the grid operator needs to dip into reserves to cover demand. When consumers reduce electricity use at critical times, it can prevent more dire emergency measures, including possible power outages. Go to [flexalert.org](https://flexalert.org) for more information.

## **Los Angeles Department of Water and Power (LADWP) Outage ([Initial/Final](#))**

On 07/12/21 at 1331 hours, the California State Warning Center received notification from the California Utilities Emergency Association (CUEA) advising that Los Angeles Department of Water and Power (LADWP) reported 10,819 outages.

- Cause of outage is power lines had to be "dropped" due to a vault explosion from a burnt conductor that occurred during tree trimming.
- 11 outages were projected to be impacted for more than an hour.
- LADWP is at 2,077 outages as of 07/12/21, 1609 hours.

# WEATHER KEY POINTS

07/12/21 - 07/18/21

## Monday-Sunday

- Hot temperatures continue for much of interior and southern California, with **high to very high heat risk** impacts through Monday
  - High temperatures across much of the Central Valley and interior southern California will range from upper 90s to around 115 through Monday, with areas into the 120s in the southern deserts and near 130F at Death Valley.
  - **Many locations will approach or break daily records again on Monday, both for daytime high temperatures and high overnight low temperatures.**
  - **Compared to recent significant heat waves this year, the high temperatures will be slightly warmer than recent events, and the overnight lows will be several degrees warmer than previous events.**
  - Slightly cooler but still above normal temperatures expected for the middle to end of this week.
- Breezy conditions each afternoon will persist in the foothills and mountains, bringing periods of elevated fire weather conditions
- Isolated thunderstorms are possible across southern California mountains and across the Sierra, with the best chance Monday and Tuesday. Precipitation amounts are not expected to be significant, with lightning and erratic gusty winds the main threat.
  - Northern, coastal and most southern California locations will remain dry throughout the week
